

MULTI-CHANNEL GRANTS MANAGEMENT.

ABSTRACT OF THE DISCLOSURE

A multi-channel management system and method includes a financial management system and a web-based portal. A grants management system receives a grant initiative from a granting agency and receives a grant initiative application from an applicant via one of a web-portal, fax, in-person, and telephone. The grants management system and the financial management system are integrally connected facilitating transmission and messaging between the grants management system and the financial management system, and allowing the grants management system to dynamically manage grant initiative transactions and financial transactions associated with a life-cycle of a grant initiative from the granting agency by automatically triggering events.
